

SENATOR FITZGERALD: Mr. President, members of the Legislature. I stand here 100 percent behind Senator Lewis. I think Coach Devaney brought this football to Nebraska. I have this book here, "Go Big Red". I've been reading it. Senator Chambers is right. Tippy Dye had the wisdom to come and pick our great coach, Robert Devaney, and bring him here. He led us to football. I think, myself personally, that this book should have been "Go Big Red" and it should have been "Go Big Bob", this book right here. Now I know we've got a lot of important things on the agenda today, so I'd like to ask for the previous question.

PRESIDENT: There are no other lights on. Senator Frank Lewis, would you close debate please.

SENATOR F. LEWIS: Mr. President, after being pierced by that mediocre cartoon from usually a good cartoonist, I graded that, Ernie, and that is a high D. That is only because I like you personally. Now, Mr. President, as unused to it as I am, I am going to disagree with the Chairman of the Government Committee. The transcripts will show that I went before the Committee and I said "I want to be candid with you. My purpose here is to name the Sports Complex after Bob Devaney". That is part of the record. I'll make that available to each and everyone of you. The entire discussion was about Bob Devaney. If they're all good friends of him, based on some of the comments I heard in that Committee I'd wear a six gun if I were he and I came to the Legislature and appeared before the Government Committee. The transcript will show that also, which I'll deliver to you. That is how we always do it in this body. We say "my usually good friend". When they say that, that is the time to get your back to the wall and find the largest club you can find. So the record shows that. I came before you and I said I made a mistake. I told you I probably should have gone in with that specific amendment. But I told the Committee my intention. I have the amendment before you now. That is all I want. All I want is to name this specific building after Robert S. Devaney for what he's done in sports. If somebody wants to name it Exon, and somebody wants to name it Carpenter, I'm giving you the great opportunity. Put it on the board and debate it and amend it the way you want to. Mr. President, I'd request that we raise 273 notwithstanding the action of the committee.

PRESIDENT: That is the motion. Record your vote. Have you all voted? Record. Wait.

CLERK: 32 ayes, 9 nays, Mr. President.

PRESIDENT: We go to item D. Senator Koch.

CLERK: (Read Koch amendment, regarding LB 69, found on page 479 of the Journal). The motion was first offered on February 9th.

SENATOR KOCH: Mr. President, members of the body. It is with deep reservation that I request this body to reconsider the action of the Judiciary Committee as pertains to LB 69. LB 69 is an effort to upgrade our methods, under law, in which we establish a Parole Board for the State of Nebraska. Since 1966 there have been three national studies and reports on criminal justice. Recommendations have been made in all
